# IN THE BEGINNING...

A MESSAGE FROM

**JIM REAUME**

Q'STRAIT Director of Transit Sales N. America

---

It began with a question...

# Q'STRAIT®

## HOW COULD WHEELCHAIR PASSENGERS BE SAFELY SECURED IN VEHICLES?

---

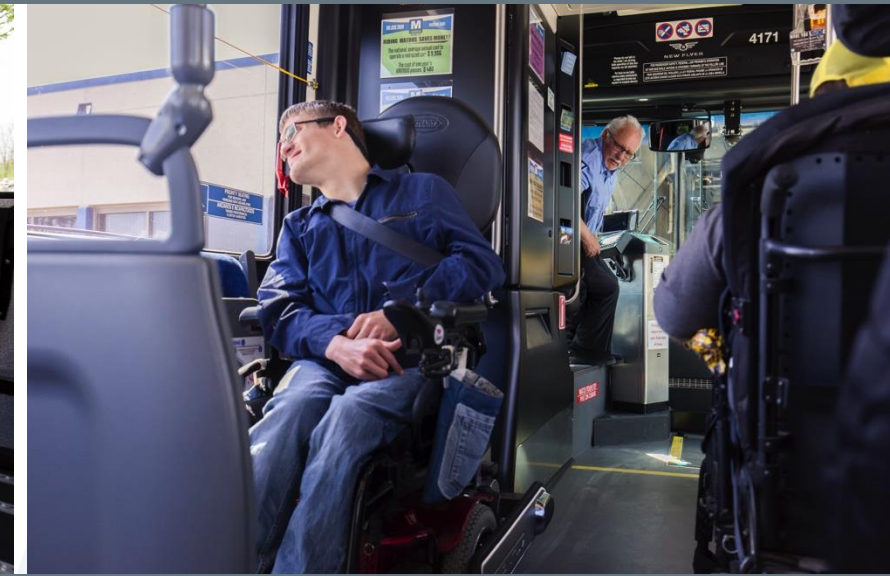

This question was answered by a team of students and specialists at **Queens University** in Ontario, Canada during the 1970's (hence the 'Q' in our logo).

The first time a wheelchair passenger used a Q'STRAIT system was the first time they met the same safety standards as everybody else in that vehicle.

Nearly 40 years later we continue to develop the highest wheelchair passenger safety products in the world.

## OUR MISSION

OUR MISSION

# MAKING SAFETY ACCESSIBLE

We believe all mobility passengers deserve access to the same level of safety as those around them. Through research and development, engineering and support, to providing innovative solutions, we are **Making Safety Accessible.**

## 30 MPH, 20g's Sled Crash Test

# Evolution of Products

Q' STRAIN develops the very first fully integrated 4-point wheelchair passenger securement system and becomes the world leader in wheelchair securement by the early 1980s.

## THE FUTURE

Q' STRAIN introduces **QUANTUM** in 2014, the world's first independent wheelchair securement system. QUANTUM allows wheelchair passengers to *secure themselves* with the click of a button.

**QUANTUM**...the future in Securement is **HERE!**

# OUR PEOPLE, OUR COMPANY...

# OUR CORE VALUES

## CHARACTER

Do the right thing.

## CUSTOMER FOCUS

Always act & make decisions in the Customers' best interests.

## EXCELLENCE

Always give your best: your words, actions & work reflect your personal level of quality.

## UNITY

Work as ONE Team, with ONE Purpose, in ONE Direction

# OUR CORPORATE OFFICE

NORTH AMERICA

# Q'STRAIT HEADQUARTERS

Our new facility in Oakland Park, Florida houses most of our people and operations. Operational capabilities include Sheet Metal Fabrication, Complex Assembly, Sewing and Track Processing.

# WE ARE
