

National Transit Database (NTD) Requirements for 5311 Subrecipients

Presented by Jesse Zaragoza & Luke Taylor
April 15th 2025

MPD Transit Team

Administration

Tina Munoz – Transit Group Manager

State Safety Oversight Program Manager

Brian Brinkley

Rail Compliance Officers

Dan Porter Ty McLeod

Transit Group Assistant Manager and State Transit Planner

Aubree Perry

Transit Program Managers

Shatawn Reed

Jesse Zaragoza

Luke Taylor

Mary Villarreal - Perry

Program Support

Edmund Shepard & Nicole Fowler – Vehicles Management Analyst

Ann Cochran – Transit Program Specialist

Jalisa Clark – Contract Specialist / RTAP Administrator

Diane Ohde – Transit Grants Business Analyst Consultant

Icebreaker

What's your favorite way to unwind after a long day?

Agenda

- Background Information
- Reporting Requirements
- ADOT Collection Process
- Common Reporting Issues
- Proposed Updates for 2025-2026
- Questions
- Resources
- Closeout

Background Information

- After data reporting was required by Congress in 1974, the Federal Transit Administration's (FTA) National Transit Database (NTD) was set up to be the repository of data about the financial, operating and asset conditions of transit systems.
- NTD records the financial, operating, and asset condition of transit systems helping to keep track of the industry and provide public information and statistics.
- Designed to support local, state and regional planning efforts and help governments and other decision-makers make multi-year comparisons and perform trend analyses. It contains a wealth of information such as agency funding sources, inventories of vehicles and maintenance facilities, safety event reports, measures of transit service provided and consumed, and data on transit employees.

Background Information

- Transit agencies report data on a number of key metrics including Vehicle Revenue Miles (VRM), Vehicle Revenue Hours (VRH), Passenger Miles Traveled (PMT), Unlinked Passenger Trips (UPT), and Operating Expenses (OE).
- Reporting is separated by mode:
 - Bus (MB)
 - Commuter Bus (CB)
 - Demand Response (DR)
 - Vanpool (VP)
 - Other

Background Information

- **Bus (MB)**
 - Fixed-route bus service is the most prevalent transit mode in the country
 - Transit agencies must report any route deviation as MB service
- **Commuter Bus (CB)**
 - Operates with multiple trip tickets, multiple stops in the outlying areas, limited stops in the central city, and at least five miles of closed-door service

Background Information

- **Demand Response (DR)**
 - Shared-ride demand response service is scheduled in response to calls from passengers
- **FTA uses NTD data to apportion funding to urbanized and rural areas in the United States.**

Reporting Requirements - Self Reporting Agencies

- Self-reporting Agencies: Any agency that receives FTA funds directly as well as from ADOT
 - Tribes
 - Urban Areas
- ADOT will provide key financial data and will work with subrecipients to verify the figures

Reporting Requirements - General

- Recipient Basic Information (Address, Website, etc.)
- Service Area
- **Financial Information (Expenditures)**
- **Asset/Infrastructure Information - Vehicle Inventory/Facilities**
- Service Data (Hours, Miles, etc.)
- Safety Data (Violent Incidents, Collisions, Fatalities, etc)
- **General Transit Feed Specification (GTFS)**

Reporting Requirements - Transit Award Management System (TrAMS)

If bus, is service deviated fixed route or fixed route only?		<input type="checkbox"/> Vanpool

ADOT Collection Process

- ADOT Compiles Expenditures for July 1st to June 30th
- ADOT Reaches out to Subrecipients requesting Safety Data and Reimbursement Information, if not available
- Recipients fill Safety Data and Reimbursement (if applicable) and submit information to ADOT
- ADOT Submits information to NTD every year before October 30th
- Receive feedback from from FTA
- ADOT corrects or clarifies data with subrecipients to resubmit to FTA
- **Report closeout date varies - Feb. 28th, 2025**

ADOT Collection Process - Service & Financials (E-Grants Report)

Fare Revenue Reported for the Month:								\$690.50

ADOT Collection Process - E-Grants

- As many costs as possible **MUST** be allocated directly to a mode (i.e. maintenance for a vehicle, etc.)

Direct Expenses by Mode - THIS MAY NOT BE ALLOCATED				
	Admin	Operating	Preventive Maintenance	Other Capital
Bus				
Commuter Bus (CB) / Intercity				
Demand Response / Complementary Paratransit				
Vanpool (VP)				
TOTALS				
Allocated Expenses by Mode				
	Admin	Operating	Preventive Maintenance	Other Capital
Bus				
Commuter Bus (CB) / Intercity				
Demand Response / Complementary Paratransit				
Vanpool (VP)				
TOTALS				

ADOT Collection Process - Asset/Infrastructure Information - Vehicle Inventory/Facilities

- Transit agencies need to measure and report facility conditions of administrative, maintenance, and passenger facilities to the National Transit Database (NTD)
- **FTA requires that facility condition data be fully updated every three years at a minimum**
- Maintenance and Administrative Facilities:
 - Administrative Facilities
 - Maintenance Facilities
 - General Purpose Maintenance Facilities
 - Heavy Maintenance Facilities
- **Facility Condition Assessment Guidebook**

ADOT Collection Process - Safety Data

Event Type	Physical Assaults in Transit Vehicle	Physical Assaults in Revenue Facility	Physical Assaults in Non-Revenue Facility	Physical Assaults in Other Location
Major Safety and Security Events	0	0	0	0
Non-Major Events (non-injury)	0	0	0	0
Total	0	0	0	0
Operator Injuries	0			
Other Transit Worker Injuries	0			
Other Injuries	0			
Operator Fatalities	0			
Other Transit Worker Fatalities	0			
Other Fatalities	0			
Event Type	Non-Physical Assaults in Transit Vehicle	Non-Physical Assaults in Revenue Facility	Non-Physical Assaults in Non-Revenue Facility	Non-Physical Assaults in Other Location Occurs
Major Safety and Security Events *	0	0	0	0
Non-Major Events (non-injury) *	0	0	0	0
Operator Injuries	0	0	0	0
Other Transit Worker Injuries	0	0	0	0
Other Injuries	0	0	0	0
Operator Fatalities	0	0	0	0
Other Transit Worker Fatalities	0	0	0	0
Other Fatalities	0	0	0	0
Additional Details				

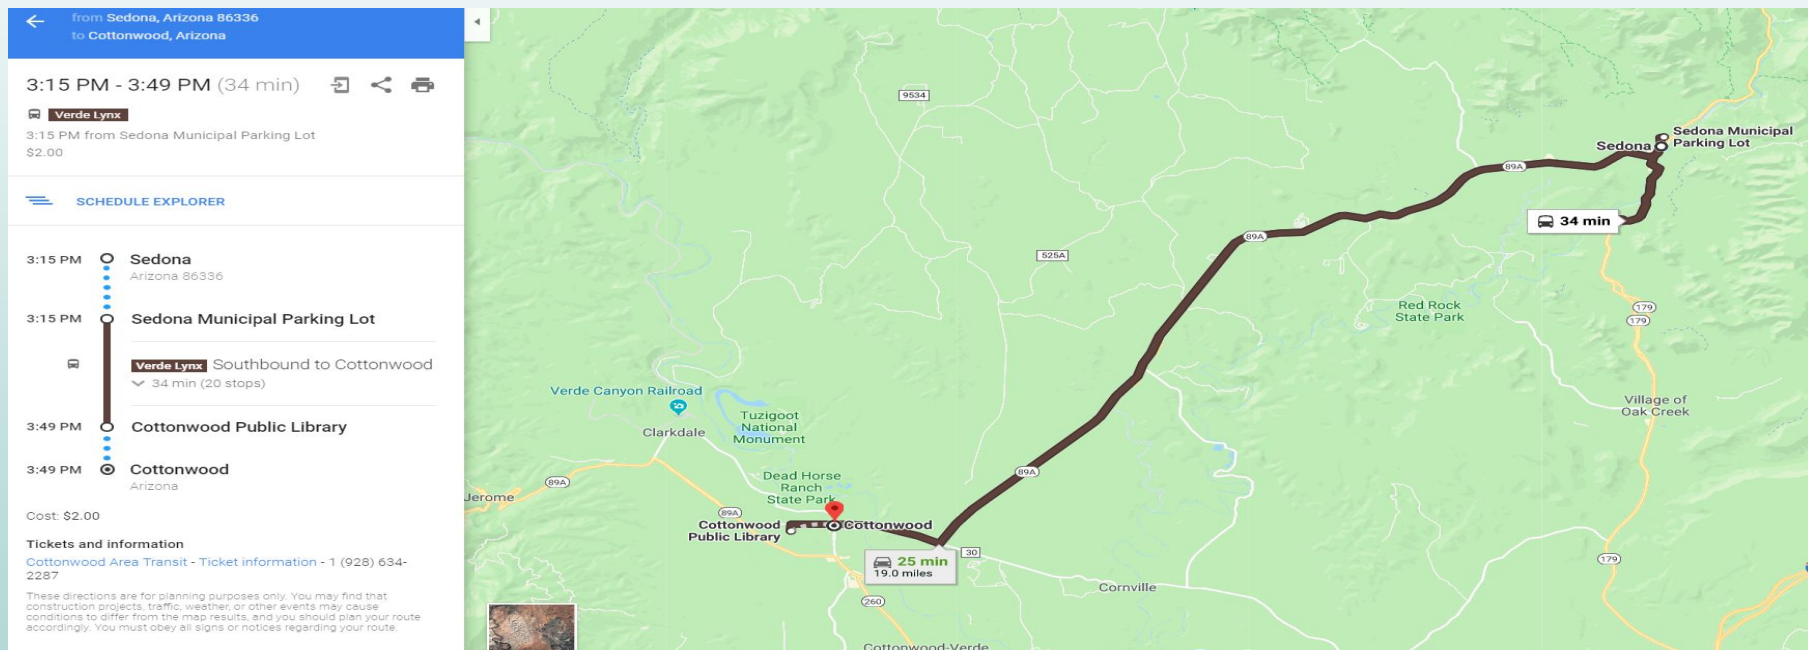

What if my data gets rejected?

1. NTD will flag the data and ask for clarification or correction
 - a. ADOT will work with subrecipients to correct
2. If we cannot correct in a reasonable time, we need to submit a waiver
 - a. A waiver removes the data from our report for the year
 - i. This may reflect in our funding formula
3. We absolutely do not want to file for a waiver for the same issue two years in a row
 - a. Massive compliance issue

ADOT Collection Process - General Transit Feed Specification (GTFS)

- The General Transit Feed Specification, also known as GTFS, is a standardized data format that provides a structure for public transit agencies to describe the details of their services such as schedules, stops, fares, etc.
- It allows public transit agencies to publish their transit data in a format that can be consumed by a wide variety of software applications, most commonly trip planners. This means that users can easily get travel information to access public transit services by using their smartphones or similar devices.

ADOT Collection Process - National Rural Transit Assistance Program (RTAP)

- The Formula Program for Rural Areas provides funding for the RTAP program. A portion of the funding is reserved for National RTAP
- National RTAP's mission is to address training and technical assistance needs of rural and tribal transit operators across the nation, and support the state RTAP programs.
- Offer comprehensive set of free technical assistance programs and resources includes training materials, webinars, newsletters and technical briefs, peer resources, research, and innovative technology initiatives.

Introduction

Trip planning technology (the integration of transit route and schedule data on a map) enables riders to determine how to use transit to get where they need to go. General Transit Feed Specification, more commonly known as GTFS, is the world standard format for uploading schedule and geographic data (route alignment and bus stops) to trip planners, such as Google Transit, Apple Maps, Bing and Transit App, etc.

To get started with GTFS Builder, click the Download button in the banner above. For more introductory information, see the "Tools that Connect: Online Trip Planners and GTFS Builder" technical brief.

Introduction

Common Reporting Issues for 2024

- Outdated GTFS links
- All Routes need to be reported
- Incorrect reporting of miles, hours, and funding
- Turnaround for relaying information to NTD
- Did not report abnormal service changes
 - Use comment box on performance page!

Proposed Updates for 2025-2026

- Refinements to Geospatial Data Reporting. FTA recently began collecting geospatial data from transit agencies in the form of General Transit Feed Specification (GTFS) feeds. This data helped build the National Transit Map; supports trip planning for transit users; and standardizes information collecting on routes and schedules. This year, **FTA is proposing to standardize agency identification within GTFS and begin requiring shapes.txt files for visual route information.**
- Asset Data Improvements. To better track ADA accessibility of passenger stations and simplify NTD reporting, **FTA is proposing to consolidate stations and facility reporting into a single form and adding three asset categories to improve state of good repair estimation and modeling.**

Proposed Updates for 2025-2026

- **NTD System Improvements.** FTA is proposing to expand waivers for NTD full reporters who predominantly serve rural areas. This will lower reporting requirements for eligible agencies, particularly those affected by changes in the 2020 Census. In addition, FTA will add a self-certification for those who report to the NTD voluntarily.
- **Comment closed on December 30th, 2024**
